T SERIES TUBULAR FRAME AIR HANDLERS FOR VERSATILE APPLICATIONS

FEATURES:

Welded Tubular Frame Construction:

Rigid, welded tubular steel frame provides strength, durability, and structural stability across a wide range of unit sizes and configurations.

Flexible Modular Design:

Tubular construction supports a broad range of cabinet sizes and airflow arrangements while maintaining consistent structural integrity.

Customizable Platform:

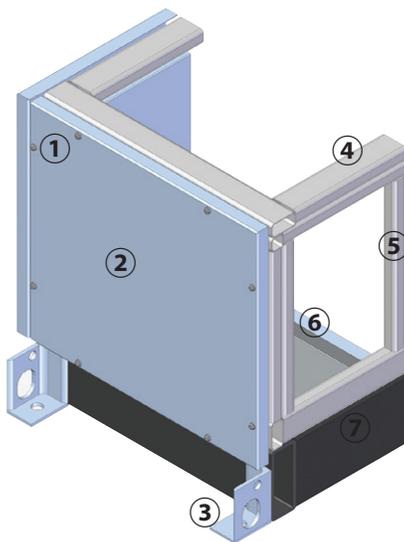

The T Series delivers a flexible design platform that balances customization capability with cost-effective construction.

Durable Cabinet Construction:

Designed for long-term performance in commercial and institutional environments where reliability and value are key.

Multiple Installation Configurations:

Horizontal and vertical arrangements support indoor, outdoor, rooftop, and mechanical room installations.

- ① Fastener
- ② Formed Sheet Metal Panel
- ③ Anchor/Lifting Lug
- ④ Structural Steel Tube Roof Structure
- ⑤ Structural Steel Tube Post
- ⑥ Heavy Gauge Formed Sheet Metal Base Cross Members
